Disclaimer

All bathymetric information is derived from PAD, GSI Gebco data combined with UKHO coastal bathymetric information provided by Seazone and integrated by ERT (Scotland) Ltd. Coastline data and gazateer information from National Imagery and Mapping Agency (NIMA). All other data sources are in the figure title. All rights reserved by original data provider.

Contents

1	Introduction	1-1
2	Physical and chemical aspects	2-1
2.1	Bathymetry	2-1
2.2	Geology, seabed substrata and features	2-4
2.3	Oceanography and hydrography	2-19
2.4	Contamination of water and sediments	2-22
2.5	Climate and meteorology	2-26
3	Ecology	3-1
3.1	Plankton	3-1
3.2	Seabed animals (benthos)	3-2
3.3	Fish and shellfish	3-8
3.4	Marine reptiles	3-21
3.5	Seabirds	3-22
3.6	Marine mammals	3-40
4	Conservation	4-1
4.1	Overview	4-1
4.2	Offshore habitats	4-1
4.3	Offshore species	4-3
4.4	Coastal habitats and species	4-4
4.5	Maritime archaeological heritage	4-4
4.6	Other plans	4-5
5	Other users of the sea	5-1
5.1	Commercial fisheries and aquaculture	5-1
5.2	Recreation and tourism	5-7
5.3	Marine technology	5-10
5.4	Shipping	5-11
5.5	Existing infrastructure	5-14
5.6	Military use	5-17
