

**First Strategic Environmental Assessment
for Oil and Gas Activity in Ireland's Offshore
Atlantic Waters:
IOSEA1 Slyne, Erris and Donegal Basins**

**Environmental Report
Final**

This report was commissioned by:

and prepared by:

ERT (Scotland) Ltd

Marine Environmental Consultants

Disclaimer

All bathymetric information is derived from PAD, GSI Gebco data combined with UKHO coastal bathymetric information provided by Seazone and integrated by ERT (Scotland) Ltd. Coastline data and gazateer information from National Imagery and Mapping Agency (NIMA). All other data sources are in the figure title. All rights reserved by original data provider.

Contents

Non-technical summary	i
1 Introduction and background	1-1
1.1 Introduction	1-1
1.2 Scope and purpose of IOSEA1 and environmental report	1-3
1.3 SEA legislative context	1-4
1.4 Oil and gas licensing context	1-6
1.5 Organisation of the environmental report	1-8
2 SEA process	2-1
2.1 Introduction	2-1
2.2 How the SEA process was applied to this plan	2-2
3 Regulatory context	3-1
3.1 Introduction	3-1
3.2 Licensing	3-1
3.3 Environmental regulation	3-2
3.4 Relationship to other plans and programmes	3-9
4 Draft Plan and alternatives	4-1
4.1 Introduction	4-1
4.2 Scenario and assumptions for Draft Plan	4-1
4.3 Alternatives	4-2
4.4 Description of exploration scenario	4-2
5 Summary of baseline environment	5-1
5.1 Physical and chemical aspects	5-1
5.2 Ecology	5-12
5.3 Conservation	5-24
5.4 Other users of the sea	5-27
6 Identification of potential impacts and concerns	6-1
6.1 Introduction	6-1
6.2 Approach	6-2
6.3 Potential impacts and concerns	6-7
7 Impact assessment for seismic activities	7-1
7.1 Introduction	7-1
7.2 Noise generation	7-1
7.3 Atmospheric emissions	7-12
7.4 Physical presence	7-14
7.5 Accidental events	7-16
8 Impact assessment for exploratory and appraisal drilling activities	8-1
8.1 Introduction	8-1
8.2 Noise generation	8-1
8.3 Disposal of drill cuttings and disturbance to sea bed	8-5
8.4 Atmospheric emissions	8-11
8.5 Physical presence	8-13
8.6 Accidental events	8-14

Contents

9	Cumulative and transboundary impacts from implementing the Draft Plan	9-1
9.1	Introduction	9-1
9.2	Noise	9-1
9.3	Discharge of drill cuttings and disturbance to sea bed	9-3
9.4	Atmospheric emissions	9-3
9.5	Physical presence	9-6
9.6	Accidental events	9-6
10	Mitigation and monitoring	10-1
10.1	Seismic survey	10-1
10.2	Drilling	10-3
10.3	Monitoring	10-4
11	Conclusions and recommendations	11-1
11.1	Conclusions	11-1
11.2	Data gaps	11-3
11.3	Overall recommendations	11-5
11.4	Overall conclusions	11-10
12	References	12-1
13	Abbreviations	13-1
14	Glossary	14-1
15	Acknowledgements and Steering Group membership	15-1
Appendix 1	The Draft Plan	A1-1
Appendix 2	The SEA Directive, and Statutory Instrument 435 of 2004	A2-1
Appendix 3	The Harmonised Offshore Chemical Notifications Format (HOCNF) Schemes	A3-1
Annex	First Strategic Environmental Assessment for Oil and Gas Activity in Ireland's Offshore Atlantic Waters: IOSEA1 Slyne, Erris and Donegal Basins Environmental Report – Environment baseline
